

RISHAV KAMBOJ

Full Stack Developer | MERN Stack

📞 9729788743 @rishavkamboj75@gmail.com 🌐 <https://rishav-kamboj.vercel.app> 🌐 <https://github.com/RishavK1>

SUMMARY

I am a **Full Stack Developer** with expertise in the MERN stack and Next.js, focused on building scalable AI-powered applications. I excel in both front-end and back-end technologies, prioritize problem-solving, performance optimization, and deliver seamless user experiences.

EDUCATION

Bachelor's Degree in Information Technology
[Seth Jai Parkash Mukand Lal Institute Of Engineering And Technology](#) 📅 2022 - 2026

Higher Secondary Education (PCM)
[S. D. Model Sr. Sec. School](#) 📅 2022

EXPERIENCE

Full Stack Software Developer
[Subhx InfoTech \(OPC\) Private Limited](#) 📅 04/2026 - 06/2026 📍 Remote

- Built the **CoinsPe** Basket investment platform feature end-to-end — users can discover crypto baskets, invest and redeem via wallet, and track portfolio performance while admins manage clusters, investors, redemptions, and dashboard analytics.
- Developed the complete **backend system** connecting user wallet flow, basket composition, transaction tracking, admin operations, and **live coin** master data into a single cohesive product flow.
- Designed and integrated RESTful APIs for basket investing operations — handling **investment** transactions, redemption workflows, **real-time portfolio tracking**, and admin-level data management using Node.js and PostgreSQL.

Software Developer Intern
[75way Technologies Pvt. Ltd.](#) 📅 01/2026 - 04/2026 📍 Mohali , India

- Contributed to **Inception**, a financial management platform — shipped features across full-stack including UI components, backend APIs, and DB logic.
- Resolved **20+ critical bugs** in production across React.js frontend and Node.js/Express.js backend, improving platform stability.
- Built and optimized RESTful APIs for financial data workflows, improving processing performance and reliability.

Full Stack Developer Intern
[CodeRower Software Private Limited](#) 📅 03/2025 - 09/2025 📍 Remote

- Built and optimized scalable **web and mobile** platforms using Next.js, React Native, TypeScript, and GraphQL, including landing pages, real-time chat apps, and **dynamic** content systems—boosting user engagement **40%** DAU and reducing crashes **50%**.
- Enhanced multiple **production** websites with performance, responsiveness, API integrations, and automation, reducing manual work by **80%**, **fixing 15+ critical bugs**, and enabling faster, stable release cycles.

PROJECTS

Bloom - AI Code Generation Platform
🌐 <https://bloom-dusky-eight.vercel.app>

- Built a production **SaaS** platform with Next.js, React.js, TypeScript, and PostgreSQL that generates web applications through conversational AI.
- Implemented a multi-agent AI system using **Google Gemini**, **OpenAI**, and Inngest Agent Kit, orchestrating specialized agents for code generation based on usage tracking with Prisma ORM.
- Integrated **E2B sandboxes** for secure code execution with custom Next.js templates and Tailwind CSS.
- Deployed on **Vercel** with optimistic UI updates using **TanStack Query** and **React Server Components**.

Insider Jobs - Job Portal
🌐 <https://job-portal-beige-seven.vercel.app/>

- Developed a **full-stack job portal** with secure authentication (JWT + Clerk) and role-based access control for job seekers, recruiters, and admins, ensuring scalable and secure user management.
- Built robust **backend systems** using Express.js RESTful APIs, featuring job posting, application workflows, user profiles, and advanced search (filters, pagination, sorting) to significantly enhance hiring efficiency.
- Improved performance and reliability by integrating Cloudinary (**~40% load time**), deploying on **Vercel** with optimizations, and implementing Sentry error tracking (**50% faster bug resolution**) for a stable production-ready system.

CERTIFICATIONS

[Delta 3.0 - Full Stack Development | Apna College](#)
Skills Gained: MERN Stack, Database Management, Authentication, CI/CD Deployment

[The Complete 2023 Web Development Bootcamp | Udemy](#)
Skills Gained: React.js, Node.js, MongoDB, REST APIs, Express.js, Full-Stack Development, Deployment Strategies

TECHNICAL SKILLS

- Languages:** C++, JavaScript ,TypeScript
- Front-End Development:** React.js, Next.js , React Native, Tailwind CSS, Bootstrap, HTML, CSS, Shaden UI.
- Back-End Development:** Node.js, Express.js, tRPC, REST APIs, GraphQL, Python , Fast API
- AI & Workflow:** Google Gemini AI, OpenAI Inngest Agent Kit, E2B Sandboxes.
- Databases & Cloud Services:** PostgreSQL, MongoDB, SQL, Cloudinary, AWS, Vercel, Neon.
- Authentication & Security:** Clerk, JWT, Passport.js, Zod Validation.
- State Management & Data Fetching:** Redux, TanStack Query (React Query), React Hook Form.
- DevOps & Tools:** Git, GitHub, Postman, CI/CD, Prisma Studio.
- Testing & Monitoring:** Sentry.

KEY ACHIEVEMENTS

-  **Programming & DSA**
Solved **150+** Data Structures & Algorithms problems in C++ on **TUF+** platform, demonstrating strong problem-solving skills
-  **Achieved University Topper Rank**
Ranked **2nd in the 5th semester** and **6th** in the 4th semester among **150+** peers, demonstrating consistent academic excellence
-  **Team Leadership**
Led a **7-member** team to victory in a competition with **250+** participants
-  **Web Development Certification**
Completed a **63-hour Full Stack** Development Bootcamp, gaining expertise in **MERN** stack

VOLUNTEERING

Team Liaison – Zest Day (2022)
[Tunic Club, JMIT](#)

- Led a **cross-functional** 7-member team, **managing event coordination** for 250+ participants.
- Oversaw **task delegation, scheduling, and onsite troubleshooting**, ensuring seamless event execution.
- Streamlined **communication** and coordination workflows, improving team efficiency and minimizing delays during critical event phases.
